AUGUST, 2024

## Chairman's Message

As we step into August 2024, we find ourselves reflecting on the significance of freedom—what it means, how we cherish it, and how it shapes our lives. Our nation's journey from colonial rule to sovereignty is a testament to the countless sacrifices and the unyielding spirit that paved the way for our freedom.

Yet, as the years go by, it's easy to take our hard-earned liberty for granted. Every time we see the Tricolour flying high and hear our National Anthem, our hearts swell with pride, but do we fully understand the depth of what freedom truly entails? Our history is a story of resilience, of finding hope even in the darkest moments. But what does freedom mean in today's world?

Albert Camus once said, "Freedom is nothing but a chance to be better." Indeed, freedom is not just about casting off chains; it's about living in a way that respects and uplifts others. It's about being bold and responsible, about embracing the opportunity to become what we never imagined we could be.

Freedom takes on many forms—it can be political, giving us the power to choose our leaders and shape our future; it can be personal, allowing us to express our thoughts and ideas without fear; it can be financial, as we strive to free ourselves from the burdens of debt. But above all, freedom is a collective endeavour. It's not just about doing as we please, but about using our autonomy to make the world a better place for the generations to come.

As Gurudev Rabindranath Tagore beautifully expressed, "The highest education is that which does not merely give us information but makes our life in harmony with all existence." This harmony is the essence of true freedom—a freedom that is not just about personal liberty but about living in a way that contributes to the greater good.

As we move forward, may we continue to honour the true spirit of freedom, not just as a right, but as a profound responsibility to ourselves, to each other, and to the future.

### Proud to add wings

In 2017, Ambuja Neotia's CSR team met Rahul Golder, who, despite scoring 93.7% in Madhyamik, was denied admission to Standard XI by his school. Rahul's family, living near Ecospace in Jatragachhi, struggled on his father's meager earnings. Seeing his potential, our team stepped in, providing him with a scholarship and mentoring. With support and guidance, Rahul excelled, securing a place at IIT Kharagpur for a 5-year M.Tech in Chemical Engineering. Now, having completed his studies, Rahul is set to pursue a Ph.D. at Texas A&M University on a full scholarship. Reflecting on his journey with us, Rahul proudly says, "I am a graduate of Utkarsh 2024... I will always cherish the 7 years of my Utkarsh journey." We are incredibly proud to have nurtured Rahul and wish him the best for his future in the USA.
